ACADEMIC PROJECTS

- ❖ **Simon Game –** html , css , Javascript
  Simon Game is an memory game that tests player's recall abilities by challenging them to repeat a growing sequence of lights. As the game advances, the sequences become more complex.

- ❖ **Spotify Homepage Clone –** html , css
  Spotify is a popular music streaming service that allows users to access a vast library of songs, playlists, and podcasts. It provides personalized recommendations and features both free and premium subscription options. Here i tried to design spotify home page using basic html and css.

- ❖ **Photographer Homepage –** html , css
  It is a web homepage for Photographers, which i can further extend and add more features which helps a Photographers to display their best albums and pictures inorder to gain new clients. Currently i designed it only with an ui by using html and css.

- ❖ **Personal Portfolio Website –** html , css , Bootstrap
  My portfolio is a presentation of all that I've learned and accomplished.I Designed this website by with front-end technologies such as Html,Css and Bootstrap

ACHIEVEMENTS / HOBBIES

- ● Problem solving in Java , (platform : Hackerrank).
